

# ANNUAL REPORT 2018-19

*As we look forward to the next decade, here's a look back at the past fiscal year! Thank you for all of your generosity and support!*

I would like to thank everyone for collaborating with Habitat for Humanity in Monmouth County for another successful year. Once again, we had all of the components that make us successful... financial donors who believe in our cause, volunteers who tirelessly give of their time, energy and enthusiasm, government personnel and elected officials who support us through advocacy and building coordination, trades people who donate both time and materials, a dedicated and committed staff, and a community that supports our endeavors. Our goals for this upcoming year are to increase the number of homes we will build, expand our Ramps and Rails program, and improve the public's awareness of our ReStore.

By working together with all our partners, we will continue to have a positive impact on affordable housing in Monmouth County.

Thank you.

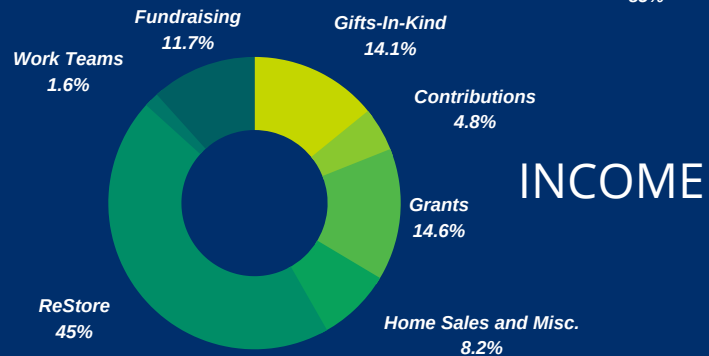

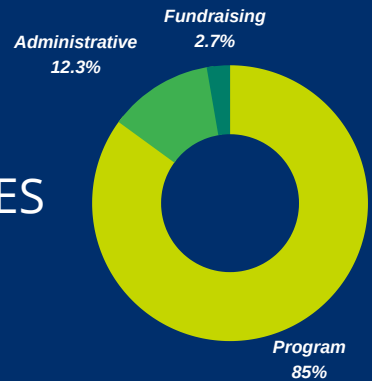

Gregory Robinson  
President of the Board of Trustees

## PROJECTS COMPLETED

**1 HOME**

**8 WHEELCHAIR RAMPS**

**10 A BRUSH WITH  
KINDNESS PROJECTS**

Habitat for Humanity in Monmouth County was formed in July 2014 when the Northeast and Western Habitat affiliates merged to provide services to 83% of the county. In Fiscal Year 2019, we completed an affordable home in Rumson with the help of our local community of volunteers, trades people, corporate work teams and construction staff. Additionally, 8 ADA-compliant ramps were constructed for people needing wheelchair access to their homes.

As you can imagine, the effect of these efforts is much more than the construction. Habitat for Humanity was founded on the conviction that every man, woman and child should have a simple, durable place to live in dignity and safety, and that decent shelter should be a matter of conscience and action for all.

We are grateful for all our supporters who share this same vision. Together, we are changing lives through the building of strength, stability, independence and shelter.

Warmest regards,

Diane Kinnane  
Executive Director

Roger, Kim and their son, Jacob, were chosen in April 2019 and they just moved into their new home this past November. Roger is an Army Veteran, and together with Kim, they have been working hard to provide for their family. We are so happy they are part of the "Habitat family" and excited to see them grow and thrive.

The home was part of the "House that Rock Built for a Veteran" campaign in partnership with WRAT radio. One of the purposes of this campaign was to build awareness that we should honor those that have served. We believe you can't have the "land of the free" without a home for the brave!

Thank you Roger and Kim for partnering with us to create a better Monmouth County by changing lives through building strength, stability, independence and shelter.

## PARTNER FAMILY UPDATE!
